NO CLUB FOR PHILADELPHIA IN AMERICAN ASSOCIATION.

Trouble About Getting a Backer-Six Clubs Have Signed an Agreement to Pay \$1,250 Into a Pool—The Promoters Are Hopeful That the Association Will Go On

PHILADELPHIA, Feb. 1.-The American Association or any baseball organization that will be a rival to the National League should be a good thing financially for its backers here. Yet it is this city that is causing all the trouble. The situation at the Continental Hotel to-day is practically the same as it was yesterday. All are "rubber necking" hard for a Quaker City Angel." but up to date that "Angel" has his wings on cold storage. Yesterday all hands were told they could return to the bosoms of their families by 1 o'clock, but they are still here, and may eventually gain long enough residence to be entitled to vote. Another meeting has been called for 11 o'clock to-morrow morning.

When it is conceded that Philadelphia is the great ball town history proves to be the fact that local backing is not forthcoming is rather surprising. The delegates came here having received assurance that a well-backed club was in readiness, but found they had been deceived. Although sorely disappointed, they are working tooth and nail for their commendatory enterprise. All day they were hustling, small committees scurrying hithor and thither as some favorable rumor came in. In fact it was a case of rumor all day, not only with the large gathering of newspaper men, but with the delegates themselves. No regular session was held, but the representatives banded themselves into committees of twos and threes and ransacked the town from top to bottom for local backing and are still on the same hunt to-night.

Here are some of the offers made for local backing. On Wednesday evening a prominent and successful amusement man told Capt. Anson that he would put up \$10,000 as a starter for a club here. George Reger's offer of yesterday, in which he is said to have shown \$40,000 toward backing a local club, and which created some stir among the visitors, is still on tap, but nothing was done to bring Reger right down to business to-day. He is said to be holding off until he hears that a club will be placed in New York. As this is practically out of the question, Reger may be considered out of the running. J. F. Stoerr of Pittsburg, said to be well fixed, is reported to have offered to start a local club and back it for \$25,000. Stoerr was here all right, but anything further than that was not divulged. Arthur Irwin, who has been a constant corridor star since the Association men came here, believes the new organization should go ahead without Philadelphia or New York.

It is said that the Philadelphia club owners have been getting next to proposed local capitalists and telling them there is nothing in baseball. Col. John I. Rogers is said to have shown on the books to-day where the club had not declared a dividend since 1883.

A local paper stated yesterday that Delahanty, Lajoie, Flick, Cross and Thomas would join the Association in this city. Cross took occasion to-day to deny this story, that is, as far as he is concerned.

Six of the proposed clubs, Detroit, Milwaukee, Chicago, St. Louis, Baltimore and Boston, to-day signed an agreement to deposit \$1,250 each on a call to form a pool which, when the eight clubs are secured, will make a pool of \$10,000. This will be used as a sinking or emergency fund for working purposes.

The League has mapped out its war pian in such a way that the magnates believe the new movement will die in a short time. In the first place, they have empowered John B, Day of New York to organize the League's war circuit to be known as the "American Association."

By has been ordered to arrange for the placing of minor league clubs in Boston, Philadelphia, Chicago and St. Louis, and any other cities where a conflict may be had with the clubs belonging to Quin's circuit, which, by the way, will be known in future as the "New American Association."

So fa \$40,000 toward backing a local club, and which created some stir among the visitors, is

Association."

So far as can be learned, the League has not called a meeting yet, but that one will be held in a few days there can be no doubt. The magnates have decided, so it is said, to throw the eight-club circuit scheme to the winds at present and fight the new organization in every possible way. Enemies of the New York League club say that with the turmoil going on there will be no chance to strengthen Freedman's team, and that there will be another dull season at the Polo grounds.

of the Baltimore club. The members of the of the Baltimore club. The members of the syndicate emerged with their faces wreathed in smiles, and declared that Union Park was theirs as surely as Spion Kop had been regained by the Boers, and the insurgents would have to look for other grounds. Ebbets also plainly intimated that in upsetting the new Association's plans in New York and Philadelphia, the League had by no means exhausted its ammunition, but had plenty more up its sleeve to be used as occasion requires.

The Thirteenth Regiment was defeated in an exciting and interesting game of in-door baseball by the Twenty-third Regiment on Wednesday night by the score of 5 to 6. The contest took place at the Thirteenth's armory. Howe and Lyons were the battery for the Twenty-third and Hutchinson and McCoy for the Thirteenth.

CLINTON, Feb. 1,-The Hamilton College Athletic Association has passed almost unanimously a motion to withdraw from the A. A. U. of New York. This action on Hamilton's part was caused by the trouble with Union over the football game at Schenectady last fall, in which the score was 0-0. Hamilton subsequently won the pennant, but the feeling against Union because of her tactics on that occasion has been very bitter. The football cocasion has been very differ. The football team held a meeting recently and elected Edward Esty Stowell, 1901, of Ithnea, captain, Stowell was captain of the team during the past season and played right tackle on the Varsity team for three years. He is a first, aggressive man and thoroughly understands the management of the team.

YACHTSMEN'S CLUB ORGANIZED, Annual Meeting to Be Held This Month to Elect Officers.

The Yachtsmen's Club was organized last night. Several members of different yachting night. Several members of different yachting organizations met at the Hotel Royalton, in West Forty-third street, and after discussing fully the need of such an organization decided that it would be a benefit to yachtsmen, and then adopted a constitution and by-laws. Among those present were Newberry D. Lawton, C. T. Pierce, E. Burton Hart, J. S. Appieby, Ward Dixon, T. Fleming Day, Frank Browne Jones, O. H. Chelborg, E. W. MaeLellan, Hayar L. Hoyt and C. P. Tower. They represented the Atlantic, Riverside, Indian Harbor, New Rochelle, Manhasset Bay, Sea Cliff, Hempstead Harbor and American Yacht clubs. All these organizations have country houses but no home in the city, and when club meetings are to be held it is necessary to rent rooms in some hotel. It was thought desirable to have a headquarters for yachtsmen in the city where they could meet during the winter months and discuss matters that would benefit the sport.

The Executive Committee of the Yacht Racing Association of Long Island Sound had been working on this plan for some time, and the members of the committee announced that already 100 yachtsmen had signified their intention of joining the club. The committee reported that a suite of rooms, five in number, could be had in the Hotel Royalton for \$1,800 a year, and the members could have meals and other refreshment served in the hotel at club rates. These rooms are well furnished. The question of dues was fully discussed and it was decided that in order to obtain a large membership it was best to make the dues \$20 a year for non-resident members until the number reached 500, when the dues snould be reduced one-half. According to the constitution adopted the officers are to be a president, vice-president, secretary, treasurer and six trustees, two trustees to be elected each vear. The annual meeting is to be held on Feb. 13, and meanwhile three special committees will be busy perfecting details. organizations met at the Hotel Royalton, in

The Crescents Defeat St. Nicholas After Fierce Struggle. In the fastest and flercest game played this season in the championship series of the Amateur Hockey League, the Crescent A. C. defeated the St. Nicholas Skating Club at the St. Nicholas Rink last night, by

a score of 5 goals to 2. It was two undefeated teams that met, each having scored five victories without a reverse. This fact attracted a large number of spectators. The number of fashionables of both sexes lent a distinctly social character to the meeting. It would not have required an expert to have told that the game was "for blood" at any stage that a glimpse might have been obtained. There was an abundance of roughing tactics and many clever plays on both sides, but the better form of the individuals and the superior team work of the Brooklynites triumphed.

Dobby of the Crescents was at once the hero and villain of the performance, and he enacted the dual role with great thoroughness, although he is under a physician's care and bad been forbidden to play. He was the fastest, surest and most reckless man in every piay and won both applause and hisses. He scored two of the Crescents five goals and one that was not counted. The St. Nicholas forwards were no match for him and several, times they suffered from the flerceness of his rushes, although he was not seen to do any deliberate roughing. Twice he was ruled off by the referee, the first time for live minutes and the second time for the remainder of the game. The St. Nicholas forwards, Barron and Callendar, especially put up a strong game, but the New York team did not seem to have the wind and quickness of their opponents. Heyward was the only man who matched the roughness of Dobby and he made the most of his few opportunities.

The fee was in prime condition, and the puck was put in play with the favor to Callendar, who got the better of the facing almost every time during the game. After the rubber had been in the Crescent territory about three minutes, Barron rushed it toward the goal and passed it neatly to Gordon, who scored. Then the play shifted from field to field in lively fashion for two minutes until Dobby rushed it and after a scrimmage pushed it into the net by a defit thrust. Within five minutes Dobby had again scored a goal after being with the disk all the way across the field. In another five minutes the ruck was being rushed behind the St. Nicholas goal again. Harty had carried it down, some one drove it to the front of the net, where Wall caught it on and villain of the performance, and he enacted the dual role with great thoroughness, al-

five minutes the ruck was being rushed behind the St. Nicholas goal again. Harty had carried it down, some one drove it to the front of the net, where Wall caught it on his stick and tipped it between the posts in a way that made it seem a chance stroke. The first half ended with the score: Crescents. 3; St. Nicholas, I.

During the intermission Dobby was found to be a very sick man and had to be carefully carel for in order to be able to go out again. The St. Nicholas men took a brace in the second half and worked faster than before, but it availed little. After a few minutes play, Wall carried the rubherfrom midfield and playing the Artful Dodger with the St. Nicholas point drove it safely into the net. Then followed hot serimmages near the Crescent goal and Garvin blocked several straight drives. Five minutes later there was a mix-up in front of the New Yorkers' net, and as the puck flew up in the air Dobby batted it with his hand and it landed against the net. The goal was protested and not allowed, and a minute later on a protest Dobby was ruled off for five minutes. The Brooklynites then played on the defensive and the second goal of the home team was not scored until after Dobby returned. The lifth goal of the Crescents was secred by Dr. Harty in as neat a play as any of the evening. After Dobby's Nicholas net about five feet from goal and Harty broke through a network of sticks to thrust the rubber home. The second goal for the home players was made by Barron, assisted by Conway, Conway carried the disk down and against the wall dug it out and passed sisted by Conway. Conway carried the disk lown and against the wall dug it out and passed sisted by colway. Conway carried the disk down and against the wall dug it out and passed it back to Barron. It was after the score was five to two that Dobby and Callendar got in a mix up, and the St. Nicholas Captain went down while Dobby was poking the rubber from between his feet. Callendar was stunned and was carried to the side of the field. His mouth was bleeding, and he said that Dobby's stick had hit him. There was a long delay, and the New Yorkers hissed and yelled "Put him off," meaning Dobby, while the Brooklynites gave rousing cheers for the brilliant player. Those who saw the collision said that if Dobby's stick struck Callendar it was the handle end of it and the blow was quite accidental. It was at last decided to rule Dobby off and the Crescent finished the last five minutes of the game with six players. The line up follows:

The company proposes to build a ten-story house, with rooms specially arranged for the use of the Yacht Club on a lot somewhere between Forty-fourth and Fifty-ninth streets near Fifth avenue. The remainder of the building will be divided into apartments, each consisting of two rooms and bath, with proper closets and all modern conveniences, so arranged that they can be combined. A proposition has been made by the Seawanhaka Company which, if availed of, will give to the club an adequate and attractive house, which can be kept open the year round at much less expense than the organization has been put to informer years for very unsatisfactory quarters. The Seawanhaka Company will buy the land and build the house as soon as \$100,000 is subscribed. It will secure the necessary loan to complete the work. The Pens Now Generously Decorated With Winning Ribbons—A Number of Exhibitors Grumble About the Awards—Annual Meetings of the Specialty Clubs Held. The poultry show, or to use the official title. the New York Poultry, Pigeon and Pet Stock Show Association, continues to draw crowds to Madison Square Garden. The awards have nearly all been made and the cages of the ex-

Women in fine clothes and millionaires who dabble in poultry for the fun of the thing, as well as the unmistakable "Rube" with whiskers on his neck, elbow each other around the cages. What the countryman doesn't know about the poultry business isn't worth knowing, and he is always listened to with attention by those who look as though they didn't realize what a barnyard was like. But there are millionaires who dress like "hayseeds" and talk not unlike the farmers. An exhibitor who has about the finest variety of pheasants ever gathered at a show was badly fooled yesterday in the appearance of an old man whom he noticed carefully examining a pair of Impeyan pheasants from the Himalaya Mountains. The old man asked:
"What'll you take for that bird?" indicating

The owner moved off about seven feet in order to allow the old man plenty of room in which to faint, and then replied: "\$150," "I'll take him," said the supposed "Rube." "I beg your pardon," remarked the owner: but perhaps you didn't understand me. I

the beautiful male of the Impeyan variety.

"All right, I'll take him. How much is this fellow?" pointing to a Femminek's Trago-

"That, sir, will cost you \$100," replied the owner, loftily. He had begun to treat the matter as a joke.

"I'll take him, too," said the old man, "and how much for this?" indicating a bird of the Japanese variety.

Fifty dollars will buy him." "Well, here's my card. You may send them up to my country place by express. I'll mail you a check to-morrow." The exhibitor glanced at the bit of paste-

pard and was nearly staggered when he read the name of a millionaire railroad magnate. The judges are coming in for a bit of censure from the disappointed exhibitors, and the officials are being hauled over the coals the same as they are at horse and dog shows. Altogether, however, the judging is thought to be very fair and there are not many complaints. The section of the Garden containing the incubators is the headquarters of all the children who visit

the show. Spectators say it is the best exhibit ever held by the Association.

Many of the clubs are holding their annual meetings at the Garden. Yesterday the American Exhibition Game and Game Bantam Club elected T. A. Havemeyer, President; Robert D. Winthrop, Vice-President; S. W. Doubleday, Second Vice-President, and Charles T. Carnman, Secretary-Treasurer. The Executive Committee contains many well-known

NEWS OF THE WHEELMEN. Automobilists and the L. A. W. Join in

Good Bonds Work. There appears now to be an excellent prospeet of practical cooperation between the Automobile Club of America and the L. A. W. in the work of highway improvement. The first sign indeative of this union of influence will be given to-morrow night at the rooms of the Automobile Club in the Waldorf-Astoria, when there will be a good roads meeting under the auspices of the club, to which the officers of the L. A. W. have been invited. The purpose of the meeting is to urge upon the Legislature the importance of appropriating a liberal sum for road improvement under the provisions of the Higbie-Armstrong bill. The fact that this is a movement that has been engaging the League and that the Automobile Club in taking it up has not chosen to ignore the League and work independently is regarded by good roads workers as one of the most gratifying incidents that has occurred since the automobilists organized, and plans looking toward a more complete and active cooperation are being formed. The meeting will be addressed by Gen. Roy Stone, Edward A. Bond, Chief Engineer of the State, Henry I. Budd, Commissioner of Public Roa's of New Jersey. Thomas C. Mendenhall of the Massachusetts Highway Commission and E. G. Harrison of the United States Office of Road Inquiry.

A new treatment for punctured tires is offered in the way of a metal clamp that is reputed to be handy and effective. It consists of a smail flat disk of brass, oval in shape, that turns up endwise on a slender shaft, in the fashion of a patent collar button. The shaft is socketed in the disk with ball bearings, so that it can be turned around easily, and is threaded like a screw hook. On the upper part of this shaft is a second disk that is serrated about the edge. The disk on the end is turned sidewise and thrust through the puncture hole and pulled flat against the inside. By twisting the shaft the upper disk is then drawn tightly down on the ourside of the tire, the serrated edge keeping it from jarring loose or slipping. A small, narrow blade file is the only tool that goes with this device and it is used in cutting off the projecting stem. If it is desired to make doubly sure of a repair, cement may be used with the clasp, but it is not necessary.

According to the Scientific American, motormen have been found inefficient as drivers for automobile cabs in Boston, owing to their training of using brakes with their right hands. The first thought of a motorman when danger threatens is said to be that of at once putting on a brake with all possible might. On an automobile the right hand deals with the steering lever and this tendency results in the motor vehicle running wild. An accident that occurred in Boston last summer is said to be traceable to the fact that the driver in charge was an ex-motorman and his old instanct got the better of him.

The makers of coaster brakes are now said to be working on the problem of changing them so that the bicycle may be trundled back-ward. This is a needed improvement. A few of the devices permit of this, but the majority do not.

KNICKERBOCKER SWIMMERS WIV. Water Polo Game.

A varied aquatic programme, including a fast game of water polo, was carried out by the Knickerbocker A. C. swimmers last night for the benefit of the large crowd that attended the clubbouse on "ladies night" Six doughty swimmers of the Pastime A. C. had the temerity to oppose the champion "Cherry Diamond" team at water polo. Though the "Indians" showed pluck and determination they were no match for the men of the home team, and the Knickerbocker goalkeepers had little work to do. After rolling up six goals in short order the Knickerbocker players infused new life into the game by passing the ball into the ranks of their opponents and eleverly recapturing the sphere before the Pastimes were able to take advantage of their generosity. Pacumonia Kills Father and Mother and Prostrates Daughter.

John Powers of 798 Montgomers street, Jersey City, died on Wednesday evening of pneumonia. His wife succumbed to the same monia. His wife succumbed to the same disease on Friday, and his two daughters accompanied her body to Rome, N. Y. While there they received a despatch asking them to hurry home if they wanted to see their father nilve. They returned by the first train but arrived too late. The younger daughter caught a cold white in Rome and is now prostrated with pneumonia. Mr. Powers, who was a buyer for H. B. Claffin & Co., was out of town when he was notified by telegraph of his wife's idness, and it was while hurrying home that he caught the cold which caused his death.

All Arrangements as to Time and Place

for the Championship Tournament Are Left to the Executive Committee-Nassau Country Club Only Direct Bidder. All records for attendance were broken last night at the annual meeting of the M. G. A .. held at the Metropolitan Club. As had been presaged in the report of the Nominating Committee R H. Robertson, the former Vice-President, stepped up a place and succeeded to the Presidency made vacant at his own request by H. B. Hollins, Sr., of Westbrook, Hollins, who has been a reliable and influential leader in local golf since the organization of the M. G. A., does not want his resignation to be taken

as an indication that he has lost any of his interest in the game, for the step has been prompted solely by the increasing inroads made by business on his time. He presided last night, Robertson, contrary to the usual custom, declining to take the chair until the next meeting.

Louis P. Bavard, Jr., was appointed by Hollins to the vacant place on the Handicap Committee. Arden M. Robbins, of this committee, said that no plans had been made regarding an issuing of the handicap list at certain intervals of time. All arrangements as to the place and time for the championshir, except that the event should be held in May, were left to the Executive Committee. In the discussion that led to this action R. B. Kerr had stated that the Lakewood Golf Club did not wish the tournament, as it would interfere with the regular April open event, although it would not refuse it in a feeling of courtesy. The Nassau Country Club, through its representative, Harvey Murdock, put in a strong bid for the championship meet. This was the only direct offer made. Robertson spoke in endorsement of the Nassau course, and, judging from the trend of opinion among the delegates, the Glen Cove links will be chosen.

The officers and committees elected follow: President, R. R. Robertson, St. Andrews: Vice-President, Waiker Breeze Smith, Tuxedo; Secretary, John Du Fais; Treasurer, W. Fellowes Morgan, Morris County.

FIGHTING.

Bids for the Jeffries-Corbett Match-Only One Contains a Check.

At 6 o'clock last evening Al Smith met Billy Brady and George Considine in the office of the Manhattan Theatre and presented five sealed envelopes and one telegram containing bids for the contest between Jeffries and Corbett, who are matched to meet for the championship on March 15 next. Brady then produced another envelope which contained a bid and a certified check for \$2,500. Smith opened the other offers and found that neither contained the deposit called for in the articles of agree-

George F, Considine's proposition was:

I herewith band you enclosed a bid from the Broadway A. C. of New York city for the Jeffnes Corbett contest. The ciub will give do per cent. of the gross receipts. The Standard A. C. of Fair View, N. J., through Julius Goldstein, made the appended offer: I have been requested by the Board of Managers to submit the following offer for the Corbett-Leffrics contest. I will give 35 per cent. of the net receipts.

Tom O'Rourke wrote as follows: On behalf of Abe Bram and myself, who represent the Seaside Sporting Club. I bid 60 per cent. of the gross receipts of a twenty-five round bexing contest at the clubhouse. March 15. The K. S. A. W. Athletic Club wishes the Corbett and Jefries bout at this place and will make an offer of \$12,000 with an additional 5 per cent of the gate receipts. We wish to reserve all kinetescope views of the light.

PSULADELPHIA, Feb. 1—The opening attraction at the Industrial Hail boxing show next Monday night will be a six-round bout between Tom Carey and Jor Goddard. Hor Spunos, Ark., Feb 1.—Iim Jaffries and Tommy Ryan have settled their troubles, and the latter will again be one of the champion's seconds in his fight with Corbett.

in his fight with Corbett.

Bloomytein, Feb. 1—At a "Smoker" given in Central Hall last night Ferry Lee, one of the trainers of Terry M Govern, knocked Joe McCauley of Brooklen out in the second round of a six-round bout. There were also several other "gos." among them, one between Billy Furman of Newark and Jack Allen of Bloomfield. The former quit after the first round on the ground that Allen was too heavy for him.

Late yesterday aftern on Dave Sullivan notified Matchmaker George Considing that he would be unable to face Kid Bread at the Broadway A. C. to night, as he had injured his shoulder in his encounter with Jack Hamilton at Troy on Thesday night. After a good deal of hustling Joe Bernstein was secured. He is in good shape and has been training hard of late, fernstein and Broad will dash for twenty five rounds. Benistein and Broad a few weeks ago and the latter got the decision.

Did Not Have Margin, but Another Mare. The inaugural sale of trotters and pacers, under the management of W. D. Grand, at the American Horse Exchange last evening was well attended, but the offerings as a rule were wrestler of America, and Beck Olsen, champion of Denmark, who lately arrived in this country, met vested and agreed to a match, to take place next month, for the best purse offered.

American Horse Exchange last evening was well attended, but the offerings as a rule were not such as to warrant high prices nor create much excitement in the way of spirited bid-

What was expected to be the star of the sale was the bay mare entalogued as Margin, 2:17%, by Onward-Hecla. When the mare was led into the ring, however, it was announced by her owner that there had been some sharp practice and that he was satisfied that he did not have the mare he had supposed, and therefore offered her as entire y unknown. As no one cared to take a chance with her, she was withdrawn after a bid of 550. The real Margin is well known to New York horsenen by reason of the notoriety she acquired a few years since in various "ringing" expeditions, under the name of "Rose Charter." Ac. The last sales of the evening were:

Winterten, blk. m., 16 hands, fooled 1593, by Brown Wilker—stancita, John Metsair, New York.

Midnight Hal, 2:1045, blk. g., 16 hands, fooled 1893, by Black Hal, S. and L. Frank, New York.
